

NOVEMBER 2014

YEAR 2 AND GOING FROM STRENGTH TO STRENGTH

In our second year we have consolidated our growth in 2012/13 and added to our range of services offered.

Also this year we have been actively involved in helping with a local charity. Norfolk Carers Support. For the last 21 years they have supported people with Caring responsibilities.

In addition, our experience has been called upon in supporting a Local Business launch their innovatively designed database, SchoolHub builds a better storage environment for School and Teachers. Delivering easier OFSTED inspections.

SUCCESSFUL BOHS SEMINAR

British Occupational Hygiene Society (BOHS)

Above: Dr. Trevor Ogden, as Chairman, opens East of England Conference.

Finally, Prof. John Cherrie gave an impassioned presentation on eliminating the Causes of Occupational Cancers, which could be achieved within twenty years if we focus efforts in the right areas.

The long awaited day long event on Understanding Chemical Regulations was well received by over 30 delegates. We were bought up to date with current thinking on REACH, from the inspector's perspective, through exposure scenarios and on to the potential conflict with CoSHH assessments. The afternoon covered the Global Harmonised System, CHIP and CLP.

the barrister

The Expert Witness activity of On Advice Ltd has greatly increase over our second year of trading. We chose to advertise in a number of legal journals. New commissions have included commenting on Asbestos Contaminated Land issues, missed ACMs in R&D Surveys, Insurance Claims and assisting with rent arbitrations.

Mr. Jason Hodgkiss
CSci CEnv CCP MFOH(S) PgD Occ. Hyg. MIOD
